business partner.

Message from Sean Peay, Dynanet CEO

As we come to the close of another fiscal year, we have many great accomplishments to note from the winning of contracts with the Centers for Medicare and Medicaid Services (CMS) and a win at the United States Department of Agriculture (USDA). Throughout this year, we have continued to be recognized as a leader in the industry for Agile software development. If you haven't read Dynanet's blog (<http://www.dynanetcorp.com/category/blog/>), please visit it for a great compendium on all things Agile. And, our Dynanet staff continue to be recognized by industry associations and government program managers for our innovation and dedication. It has been a great fiscal year and I know that many more great things are yet to come.

Corporate News

DV United, LLC, JV Member Company, Dynanet, Wins Multiyear Contract to Support Medicare Processing System June 2017

The Centers for Medicare & Medicaid Services (CMS) announced in June that a Dynanet-led team has won a 4.5 year, \$42 million contract to maintain and enhance its Common Working File (CWF) system. CWF performs benefit coordination and pre-payment claims validation for Medicare Part A (hospital and nursing care) and Part B (doctor visits, lab tests, and medical equipment). CWF's 2.5+ million lines of COBOL and batch program code, CICS transaction processing middleware, and VSAM data structure process over 1 billion claims per year.

Dynanet partnered with DV United, and incumbents MAXIMUS Federal, Superior Solutions, and Companion Data Services to win the contract. About 20 people from the previous team of 50+ project managers, business analysts, software engineers,

and other professionals are now Dynanet employees. Under the new contract, they will provide:

- Program management and reporting
- Quarterly software release management
- Requirements analysis of change requests and new features
- Software design, development, and testing
- Configuration/data management and documentation
- Production support
- Security
- Quality assurance and process improvement, following CMMI Maturity Level 4 practices

CMS is the largest purchaser of healthcare in the United States. As part of the Department of Health and Human Services, it administers Medicare, a Federal health insurance program for senior citizens, the disabled, and those diagnosed with chronic renal disorders. CWF enables national standardization of Medicare claims processing at multiple data centers throughout the United States.

Sean Peay is a 2017 AFFIRM Leadership Awardee June 2017

Sean Peay, Dynanet President and CEO, won the Executive Leadership Award for Industry – Small Business - from the Association for Federal Information Resources Management (AFFIRM). The AFFIRM Leadership Awards are among the most prestigious of the Federal community, honoring individuals and teams for their outstanding leadership over the preceding year. First awarded in 1979, award honorees join a prestigious list of agency executives and managers.

Dynanet Wins Multiyear Contract to Support the Defense Health Agency June 2017

The Defense Health Agency (DHA) announced in May that a team led by Dynanet prime partner Nolij Consulting has won a five-year, multi-million dollar contract to provide Program Management and Technical Support for the development and use of the Military Health System (MHS) Enterprise Architecture. The mission of the Enterprise Architecture Branch (EAB) is to explicitly and formally describe the current and target state MHS

architecture, and provide diagnostic and actionable information that enables the transformation of military healthcare. This role is especially critical to the success of the transition from a legacy healthcare system architecture to the recently awarded MHS Genesis healthcare system.

Under the new contract, the team will provide:

- Program management
- Technical expertise
- Standardization
- Objective decision making
- Effective and efficient system development
- Strategic alignment with mission objectives

The Defense Health Agency (DHA) is a joint, integrated Combat Support Agency that enables the U.S. Army, U.S. Navy, and U.S. Air Force medical services to provide a medically ready force to Combatant Commands in both peacetime and wartime. The DHA supports the delivery of integrated, affordable, and high-quality health services to MHS beneficiaries and is responsible for driving greater integration of clinical and business processes across the MHS.

Employee News

Baby News

We're excited to announce the birth of Ameya Reddy. Ameya was born May 21, weighing 7 pounds 10 ounces and 21 inches long. Congratulations to Anusha and Vivek for the birth of their beautiful little girl. Big brother Vivaan now has a new playmate. Welcome Ameya to the Dynanet family!

Dynanet USDA Team Building

Dynanet team members working on the USDA FAS contract hosted an after hours team building event to commemorate a successful year. In 2016, Dynanet was awarded a one-year contract with the USDA Foreign Agriculture Service to provide information technology (IT) services that deliver business results using agile software development techniques.

Employee Kudos

OPM Recognizes Dynanet's Marti Morano

Dynanet developed an e-QIP testing automation solution for the Office of Personnel Management (OPM). The new solution increased efficiency by over 98% decreasing the time to create one record in SF86 from 16 hours to 15 minutes. This automated solution can also be used to run functional testing for various scenarios.

Automating e-QIP helps with efficiently validating the SF86 project, a high priority Agile project, for the National Background Investigations Bureau Program (NBIB).

Candace Metzeis, NBIB Program Analyst, expressed her gratitude to Dynanet's Marti Morano for her work on this project. *"I couldn't leave today without expressing how valuable Marti Morano is to the SF86 project and how much I appreciate her help with the project. I learned so much from her in the short time that we have been working together! She is a wealth of information when it comes to Agile and Scrum and is a top notch Business Analyst. She was willing to jump in do anything necessary for the good of the project and to assist her team members. Please extend my sincere gratitude to Marti for a job well done. We wouldn't be as far as we are in the project without her help."*

Employee Profile

Mike Raymond, Executive Vice President

Mike Raymond will be rejoining Dynanet as an Executive Vice President. Mike will lead the strategic direction of new business development and corporate market offerings, with a focus on healthcare.

Prior to joining Dynanet, Mike Raymond was the Chief Strategy Officer at Octo Consulting Group. He provided strategic business development and assisted in the development and implementation of growth related strategies.

At Acentia he was the Executive Vice President/Chief Strategy Officer where he led the

strategic direction of new business development and corporate market offerings, with a focus on healthcare.

At 2020 Company, LLC, Mike served as the Chief Strategy Officer where he was instrumental in winning three major health IDIQs with ceiling values exceeding \$10B.

Mike spent 28 years at Computer Sciences Corporation (CSC) where, as Vice President of Federal Healthcare, he was responsible for building a business portfolio of \$100 million with a 900-person staff. Raymond was responsible for managing all of CSC's current federal healthcare contracts and developing new business opportunities. His customers included the Department of Veterans Affairs (VA), Department of Health and Human Services (HHS), Department of Labor (DOL), and the Department of Defense Military Health System (MHS).

Prior to serving as Vice President of Federal Healthcare, Mike spent many years in management positions, supporting CSC's work for the National Aeronautics and Space Administration (NASA) and the National Oceanic and Atmospheric Administration (NOAA). In 1995, he managed CSC's first contract with the Health Care Financing Administration, now known as Centers for Medicare and Medicaid Services (CMS). Under Raymond's leadership, CSC expanded its healthcare business at Centers for Medicare and Medicaid Services (CMS), National Institutes of Health (NIH), and Centers for Disease Control and Prevention (CDC).

"We are excited that Mike is rejoining the Dynanet Team. His understanding of the unique health care industry and government contracting is an asset to our growing company. We look forward to the expertise that Mike will bring to Dynanet," Sean Peay, Dynanet CEO and President.

ABOUT DYNANET

Dynanet Corporation has a long history of successfully assisting federal and state governments in accomplishment of their missions. The proof of our success is in the numerous accommodations and awards we have been given and the list of partners who choose Dynanet as a business team member. A highly experienced and senior leadership team with both private sector and federal experience leads our talented and certified professionals.
